FEW WORDS ABOUT ME

Originally from Naples and now based in Helsinki, I bring curiosity, ambition, and a strong belief that marketing is not just a job, but a way to create meaningful impact. I thrive at the intersection of creativity and analytics, and I'm energised by building modern digital marketing functions that help businesses grow.

Resilience (SISU) and determination are what define me in the office and outside the office; my life philosophy is well explained in the philosophical concept (Nietzsche) of the "Amor fati".
